The Sunday Dispatch, published in Philadelphia, has changed hands and the office removed to the N. E. corner of Sixth and Chestnut streets. The new management shows a great deal of activity and promise to make the paper a much better one than the old.

If ex-Senator Wallace wants to go to the Legislature he ought to be sent there. He is an able man and, politics aside, would be a worthy addition to that body next year. Clearfield county could not improve on him.

SENATOR WALLACE says he does not want to go to the Legislature to shape the policy of his party but mainly to secure the voters of the state a satisfactory ballot law. "I would not hesitate," he is reported as saying, "a moment to take the stump in advocacy of compulsory education, not the compulsory education that is sometimes agitated, but for a qualifica-

Suit for Damages.
A Pottsville officer was in town yesterday serving subpoenas on witnesses in the case of Guldin against the borough of Shenandoah. The case is brought to recover \$1,000 damages and is about five years old. The plaintiff, while driving one night at the lower end of Main street, drove over the embankment. The horse was killed, the carriage wrecked and Guldin was badly injured. Guldin claims that as there was no safeguard or light at the place the borough is responsible for damages. It is understood that the claimant offered to settle the case at one time for \$400, but the borough declined the offer.

Lakeside Locals.

Mrs. Gus Roth is on the sick list. A gentleman was here to-day taking an inventory of the place. He is seriously thinking of leasing the hotel and grounds as he is very favorably impressed with the place. Should he conclude to make an offer and is accepted, he will make Lakeside hum next season.

Everything is in readiness for the ice harvest. All that is wanting is the ice to cut. The opening of the new Hazelton branch is going to make this place unusually lively as soon as everything is in running order. All the coal from Cox's collieries must pass through here, and the tonnage will be considerable.

It is expected the Reading Company will commence the erection of a new depot and sheds at an early day and finish them in time for the spring opening of this resort.

A delegation from New York was here on Friday looking over the grounds. The gentlemen were pleased with the lakes and pleasure grounds. What they were after has not been discovered, as they acted quite mysteriously.

The passenger travel over the old Catskills route and to Audenried seems to be on the increase. The Catskills is still a popular route. Hunters use this branch to a great extent to go hunting.

Mr. Shapira's Statement.

Yesterday afternoon Mr. Shapira, the German pharmacist who has been preparing to open a place in the Robbins' building on South Main street, where the fire occurred Wednesday morning, called at the HERALD office and made a statement concerning the fire. Mr. Shapira says that there was no paint or cotton waste in the place where the fire occurred. That there was about a quart of varnish at the rear end of the store, away from where the fire was, and that the other rubbish he swept out himself when he locked the place at six p. m. Mr. Shapira also says that Mr. Dress, the janitor of the building, asserts that the fire started in the cellar under Mr. Shapira's place and that somebody must have bored a hole through the floor of the store to give the fire a draft. Mr. Shapira makes the statement because he understands that some people seem inclined to the belief that he was purposely responsible for the fire. He ridicules the idea and points to the fact that he had \$4,000 worth of stock in the place and had not a cent of insurance. Mr. Shapira also hints that there is a spirit of jealousy existing against him because he is getting ready to start a German pharmacy in the town.

"She Couldn't Marry Three."

No company that we have ever heard of has ever come to our city with such favorable couriers as "She Couldn't Marry Three." They have the unanimous endorsement of the New York Press and this you may rest assured, will be your only chance to see this superior company, as they will make no stops going from San Francisco to New York City. We have no doubt of their success here.

Law Breakers as Jurors.

The Jury Commissioners are evidently being very badly advised regarding the men whom they are selecting from this vicinity for the important duty of jury service. Among the names recently drawn from the wheel are those of persons who are known as chronic law breakers, and who are certainly not the proper persons for jurors, and the commissioners by the exercise of a little care and judgment can easily avoid it.—Tri-Weekly Record.

Benefit for Adam Mort.

Madden & Lowry, the well known acrobats and specialists who recently returned to town after a successful season of several months in the South, are arranging to give an entertainment in Ferguson's theatre on December 23th, next, for the benefit of Adam Mort. RAPID WORK!

ELECTRIC RAILWAY MEN ARE WORKING LIKE BEAVERS.

THE GRADERS OUT OF WM. PENN.

Pushing on Towards Lost Creek. One Hundred Men to be Added to the Force on Monday Morning.

The work of grading the road bed for the electric railway through Wm. Penn has been completed and a united force started yesterday to grade from Cleary's house, near the lower P. & R. crossing, over the swamp to Lost Creek. An increased force of men with about thirty carts undertook this work. They first laid two bridges across the creek, so that coal dirt could be hauled from the neighboring bank to the line of the road. These bridges were built in short order and the carts were soon fitting to and fro. At the same time stone masons started to build the foundation for the permanent bridge that is to cross the wide creek that flows east of Cleary's house. The work in this section is being pushed as rapidly as good management can make it go and Foremen Amour and Conry are making good records for themselves.

Another busy place is the site of the power house at Rappahannock. Contractor August Kudel, of Mahanoy City, has a force of fifteen working on the foundation walls, but on Monday will add six more stone masons and four laborers. He has the foundation walls of the car house up to the surface and has started to build four feet higher, which is the required height for that section of the site. The walls of the engine and boiler departments will be 15 feet above surface. Mr. Kudel says the car house walls will be finished within three days. If the weather proves favorable, he expects to have the other sections ready for their roofs within two weeks. The car house will front on the fork of the roads and the engine and boiler houses will occupy the east end of the site. The dimensions of the respective structures will be: car house, 50x80 feet; engine house, 87x50; boiler house, 82x50.

Hon. Eugene Donahue was an interested spectator at the power house site yesterday afternoon. When asked what he thought of the electric railway project he said he believed it would be one of the best things ever introduced in the valley.

"Do you think it will benefit Girardville?" he was asked.

"Well, I am certain it will not injure it," he replied.

And it is Aggravating.

As a rule most people are intensely exasperated when, after wading through some exciting story in the newspaper which they have devoured with breathless interest, to find at the finish it is only a trap to advertise some wonderful soap or patent medicine. Of course it is disappointing, but just consider how cleverly it is done, and, by the way, what a wonderful industry has been developed in this mode of advertising. Some of the great medicine firms pay their advertising agent as high as ten thousand dollars a year, and a certain manufacturer of soap pays his advertiser twenty-five thousand. Just think of it, and while you are thinking just remember that "She Couldn't Marry Three" is the best show on the road.

Secret Society Notes.

Council No. 45, Jr. O. U. A. M., of Mt. Carmel, floated a new 10x20 foot flag in front of the High school building in that borough on Thursday last. The flag, together with three others that were floated on Thursday last in different parts of the state, were sent out from Morgan's regalia and flag depot.

Shenandoah Commandery, No. 14, S. O. A., will hold its regular monthly meeting next Thursday evening. Election of officers for the next term and initiation of two candidates will take place.

Among the several orders received this week at Morgan's regalia factory were one each from Norwalk and Tarleton, Ohio, and one from Ashland, Kentucky, and three from new councils recently organized in this state. All were for Jr. O. U. A. M. regalia.

PERSONAL.

Cashier John R. Leisenring, of Hazelton City, was in town yesterday.

Councilman Moskaler and "Jimmy" Shields inspected the electric railway work down the valley yesterday afternoon.

Mr. and Mrs. O. A. Keim, who eat their Thanksgiving dinner at Dudley, N. J., the home of Mrs. Keim's parents, are home again.

Fred. Kolb, Jr., formerly doing business as a druggist in town and now residing in Michigan, was in town this week calling upon his old friends.

Councilman Portz came near having one of his eyes knocked out last night while entering his stable in the dark. As it is, he has a bad looking optic and he suffered intensely all night.

The Water Question.

Just as we expected the new Water Company will come to naught and the borough funds to the amount of three or four hundred dollars be foolishly spent, not counting the several hundred dollars it costs in the recent law suits, all to gratify the whims of a certain few cranks who are always crying down enterprises of all kinds. No sane person ever expected that a new water company would ever be organized. \$40,000 would be the least that it would take to give us a new water supply. When this borough attempted to raise that much money by a loan, the kick would be heard all over the state.—Journal. The writer of the above is evidently not very well posted. A well known gentleman of town who seems to know what the committee of citizens and councilmen is doing stated to a HERALD reporter to-day that the arrangements for establishing borough water works are now in such a condition that the committee will be able to make public in a few days what has been done. That the joint committee will hold a meeting early next week and reporters will be admitted.

Gratifying to All.

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy, Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Co.
